

## Skiso Skiso LITTLE GIRLS

spring | summer'24

Step into the enchanting world of **Skitso's Spring/Summer '24 Luminaires collection** as the sun extends its warm embrace, bidding adieu to the bittersweet memories of autumn.

A new chapter is ready to unfold, in which nature once again takes center stage in a vibrant dance of colors and textures reflected on the outfits of our Little Girls.

Within this luminous tale of the season, our **Blooming Girls** with their **flower umbrellas** capture the sweet fragrance of blossoming florals, infusing every space with nature's aromas.

The spring wind playfully awakens the Girls' colorful outfits, creating a sense of constant movement and life.

In this captivating narrative, follow Vale's little heart-shaped button, nearly skipping a beat as she encounters Lucas, the Little Guy from past collections, while Millimou suggests playing "he loves me-he loves me not" with the daisy buttons on her jacket. Simultaneously, the almond tree on Frabala's romantic skirt is poised to bloom, welcoming the springtime.

Amidst this lively metamorphosis of colors and textures, select Little Girls gracefully transform into standing luminaires in their **XL-sized** version. They share the stage with the timeless ethereal Ballerina and the edgy Papier-Mâché collections, each narrating a unique version of the same tale.

Follow the graceful movement of the Little Girls' dresses and watch as your space transforms into a kaleidoscope of hues that transcends seasons.
